PROFESSIONAL SUMMARY

Aspiring Full Stack Developer with strong foundation in Java, web technologies, REST APIs, and database management. Currently pursuing a Java Full Stack internship and building skills in cloud computing (AWS). Passionate about developing scalable applications and eager to contribute to real-world solutions.

EDUCATION

Bachelor of Engineering – Computer Science and Engineering

Mysore College of Engineering and Management

CGPA: 8.63 | Expected Graduation: May 2026

St. Philomena's P.U. College (PCMB – 81%) | 2020–2022

Presentation Public School (CBSE) (10th – 74%) | 2009–2020

SKILL SET

Languages: Java(OOP's), JavaScript, HTML5, CSS3

Library & Framework: React.js, Spring Boot, Bootstrap

DataBase: MYSQL

Testing: Manual testing

Tools : Figma, GitHub, MS Excel

PROJECT EXPERIENCE

FitMe – AI-Based Fabric Estimation and Virtual Trial Room

Tech Stack: MongoDB, Express.js, React.js, Node.js, Tailwind CSS,

- Developed a full-stack web application with responsive frontend using React and Tailwind CSS
- Built RESTful APIs using Flask to handle user inputs and integrate AI-based processing
- Integrated OpenCV and TensorFlow for body measurement detection and virtual try-on functionality
- Performed basic testing of features including input validation, UI behavior, and API responses

PetHub – Full Stack Pet Care & Veterinary Management System

Tech Stack: React.js, Spring Boot, Spring Security, REST APIs, MySQL, GitHub,

- Developed responsive and mobile-friendly web interfaces using HTML, CSS, JavaScript, and React.js for pet management and appointment booking.
 - Built backend services using Spring Boot to handle business logic, and appointment management.
 - Designed and managed MySQL database tables for users, pets, appointments.
 - Implemented secure user authentication and role-based access control using Spring Security.
 - Integrated frontend and backend using REST APIs and JSON-based data communication.
-

INTERNSHIP

Java Full Stack Intern – Pentagon Space

Duration: *February 2026 – August 2026*

- Currently undergoing training in full stack development using Java and web technologies
 - Learning Core and Advanced Java concepts (OOP, collections, exception handling).
 - Gaining hands-on exposure to frontend and backend development concepts
 - Exploring database concepts and SQL.
 - Practicing programming and debugging techniques.
-

ACHIEVEMENTS

- Secured Runner-up positions in two project expos with the final-year project **FitMe**
- Participated in 5+ college-level hackathons showcasing innovative tech-based solutions.
- Awarded **Star Performer of the Year (2023)** for outstanding communication and teamwork, and recognized as 2× Winner & 1× Runner-up in fashion/modeling competitions, demonstrating confidence, presentation skills, and leadership.
